The Big Bang Theory may have its last broadcast in 2019, but fans are still discovering something new about the show for almost a year, and a particularly fun truth uncovers a secret marriage that happens off screen. Priya was the first to watch in the four seasons where she slept with Leonard and the couple, then finally dating for a little while until a little long distance led to them breaking up, but in a new Reddit thread, one fan points out that if you go ahead quickly to season 10, Raj's father reveals that five of his six children are married and states that Raj isn't married, it means Priya must have tied the knot. One fan commented: 'Although we didn't hear much about Priya after she and Leanord broke up in S10 E16 Raj's dad said to raj that leaving his 6 children, 5 of them are married, which means Priya is married. I don't know if people noticed this or not,' well she cheated on Leonard with her ex when she returned to India so my assumption is that she married him,' another fan replied. Not everyone is clued up, though, with one fan commenting: 'That's new to me,' and another confessed: 'I only realised it when I was bingeing some TBBT today.' The Some theories ran for 12 seasons and wrapped up for good in May last year, after Jim Parsons (who played Sheldon Cooper) quit the series. Production designer John Shaffner exclusively told Metro.co.uk that the Warner brothers were hoping to continue the show for a more second season, but bosses had vowed if one cast member quit, the show would end. 'I was in touch with Chuck Lorre during the week and said he couldn't come back and said that if a member of the show 'Warner Bros. and CBS wanted to sign for two years'. 'I was back in the office and I knew about it and I went down to the stage and I saw Johnny [Galecki] and Kaley [Cuoco] in the comic book store and they hugged and cried, Shaffner said. It's very hard for people to accept the decision and the crew was very disappointed because it was a great job but I respect what Jim did it would be better to be out on top. Any stories?
